Dual-Microphones with AI noise reduction

Built-in conduction microphones in the two temples, AI reduces external noise, allowing you to talk clearly as if you were face to face

5.5 Hrs continues music playback

There is no need to worry about running out of battery when using for a long time

Wide range of use

Suitable for meetings, music, gaming and etc.

Meetings

Music

Gameing

One tap touch control

Answer and end calls, play or pause media with a tap of the glasses' touch interface.

IPX4 Water resistance

With IPX4 water resistance certification, it is sweat-proof and water resistance. In addition to indoors, it is also suitable for outdoor activities such as cycling, jogging, mountain climbing, and hiking.

Features

- World smallest MEMS microspeaker
- Dual-Microphones with AI noise reduction
- One tap touch control
- Modular design compatible with Soundcore audio glasses
- 5.5 Hrs continues music playback
- Low latency gaming mode
- IPX4 Water resistance
