# SCORPIUS-M31S
## GASKET MOUNT CNC ALUMINUM MECHANICAL KEYBOARD
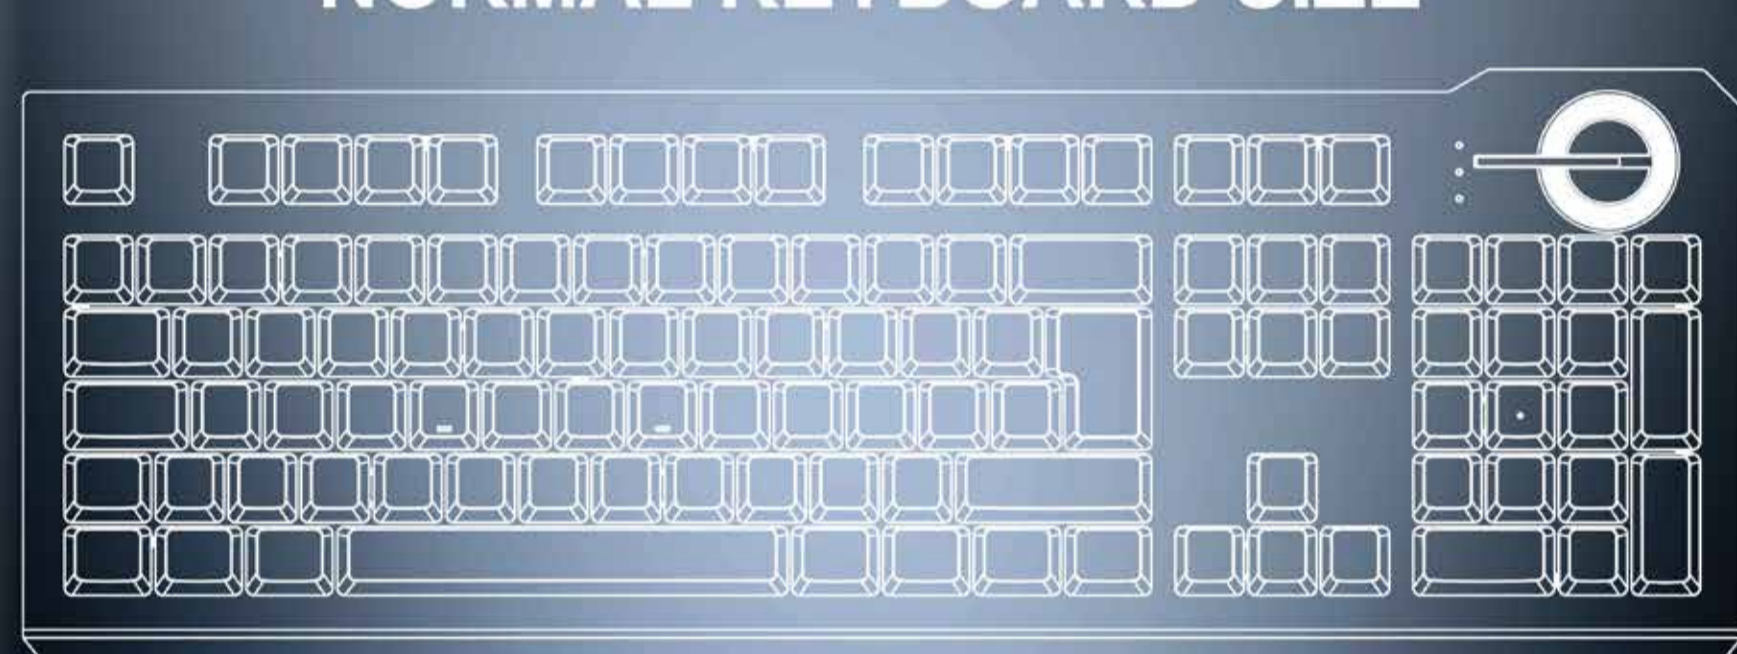

Gasket mount reduces cavity sound

The advantage of this structure is to reduce the cavity sound when hitting the bottom of the keyboard, and the double foam makes the sound reduction effect more obvious.

SCORPIUS-M31S SIZE

NORMAL KEYBOARD SIZE

75 % mechanical keyboard reduces space usage

Full-functioned yet compact, allowing you to use the desktop easily and not crowded

Multi-function rotary button

Default is sound control, press to mute, turn left to decrease volume, turn right to increase volume, and can also be customized for other functions

4 Chroma lighting zones
